

CLIZIA SUSPENSION **PIXEL**

DESIGN BY **ADRIANO RACHELE**

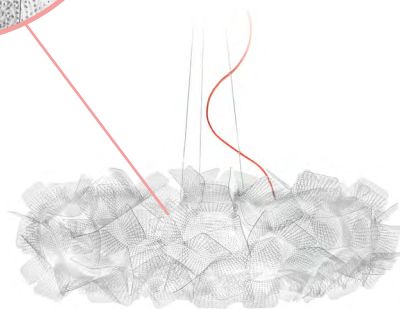

September, 2018

What would happen if a Greek nymph was suddenly transported to the digital age?

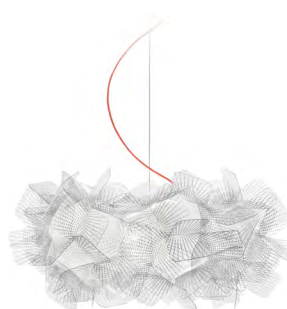

Slamp's Clizia collection is covered in pixels! A high-tech pattern in soft tones spread across the lamp's supple shapes.

The cheeky and creative red cable can be replaced by a transparent one upon request.

A dusting of white inside the decorative elements helps evenly distribute the light without glare. Available in two sizes, as well as floor and applique.
